Inspection Report
Minerals Regulatory Program
April 20, 2011

Reviewed: 

Mine Name: Torrey Buff	Permit Number: S/055/012
Operator Name: Jon Young	Inspection Date: April 20, 2011
Inspector(s): Wayne Western	Time: 12:15 – 12:55 PM
Other Participants:	Mine Status: Suspended

Elements of Inspection	Evaluated	Comment	Enforcement
1. Permits, Revisions, Transfer, Bonds	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Public Safety (shafts, adits, trash, signs, highwalls)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Protection of Drainages / Erosion Control	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Deleterious Material	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Roads (maintenance, surfacing, dust control, safety)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Concurrent Reclamation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7. Backfilling/Grading (trenches, pits, roads, highwalls, shafts, drill holes)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8. Water Impoundments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Soils	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10. Re-vegetation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
11. Air Quality	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12. Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Purpose of Inspection:

This was a routine inspection.

Inspection Summary:

The permit fees have not been paid since 2007. On June 22, 2010 a letter was sent to the Operator stating that until permit fees have been paid that the permit is suspended. Fees are needed for 2008, 2009, and 2010.

The bond amount is \$10,000 and was posted on May 9, 2007 and will need to be adjusted in 2012.

There is what appears to be a jug of antifreeze on the north area and that must be removed. On the south area there is bucket of hydraulic oil that is full and needs to be removed.

Conclusions and Recommendations:

The Division should require the Operator to clean up the site and remove all deleterious materials.

Directions:

Start at a point one-half mile east of mile marker 70 on SR 24 (which is right at the junction with SR12) near Torrey, turn south onto a dirt road. Follow this road for 0.3 miles to a fence crossing and turn right (south). From there, go 1.3 miles on the main road and there is a somewhat indistinct road to the left. There are some places where people have driven off this road, and it is a little difficult to follow. The road goes down through a small wash then up to the left to the quarry.
